TRAYS / POT SIZE 5-8 cm 9-12 cm 12-14 cm

✓ CONTAINER 1-3 L 3-5 L ✓ > 5 L

PHYSICAL CHARACTERISTICS

Composition: 80 % Sphagnum White Peat / 20 % Sphagnum Black Peat

SUPER FINE FINE MEDIUM MEDIUM COARSE COARSE **EXTRA COARSE** COARSE FIBROUS

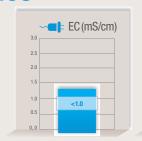

Wetting agent - improved water absorption

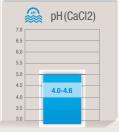

CHEMICAL CHARACTERISTICS

Chemical properties at the time of manufacture

NPK 14-16-18 + Microelements* 0.5 kg/m^{3} Nitrogen 70 mg/l Phosphate 80 mg/l Potassium 90 mg/l

* Magnesium, Boron, Molybdenum, Copper, Iron as Iron-Chelate, Manganese, Zinc. Fluctuations in the chemical properties are within the permissible tolerance range.

Fluctuation range according to quality regulations for substrates of the "Gütegemeinschaft Substrate fur Pflanzen e.V.".

NOTES ON STORAGE

MIN. 0°C /32°F

The product has been manufactured with the greatest possible care and is intended for immediate use. Store in a cool and dry place, especially during longer storage, and protect from direct sunlight. If stored properly, no significant chemical changes are to be expected in the first 6 months. High temperatures and high humidity lead to increased microbial substance degradation and volume loss. For long stored substrates, we recommend as a precautionary measure a chemical substrate analysis and, if necessary, a germination test.

If you have any questions about the product, please contact us at service@terracult.com

DELIVERY OPTIONS

250 L, 300 L, 5,000 L

The availability of the package size depends on the constitution (e.g. weight) of the substrate mix.
